In special circumstances and in advising consultation, students may elect to take an Independent Study. An Independent Study may be completed to fulfill an advanced practice elective requirement. An advanced practice elective focuses on a specific social work practice issue; considers a topic in depth; addresses practice, policy, and research aspects of the issue; and addresses implications for social work practice. The Independent Study needs to be in a subject area that is in concert with the school's mission and program objectives and is not covered already by the curriculum offerings. An Independent study may not replace required course work.

This Independent Study Proposal Form must be completed, submitted with a bibliography, agreed upon, and signed by the student, the member of the faculty who has agreed to sponsor the independent study, and the MSW Program Director. The student needs to register with the approved full time faculty sponsor for Independent Study (HWC 595). Students may register for 1-3 credits of independent study during their tenure in the program.

This form, the proposal description, and the bibliography need to be submitted together for approval. Please describe your Independent Study Proposal using the following headings.

- Description: describe what you plan to explore and how this proposal meets criteria for an advanced practice elective.
