The MSW Program required curriculum includes several course sequences. Sequences have a Sequence Chair (SC) who oversees the sequence content, faculty, and delivery. The SC role is intended to ensure and support consistency across sequence sections and sequence courses. The sequence chairs from the various sequences are expected to meet together to coordinate, integrate, and reinforce content that results in a cohesive curriculum.

a. Role of the Sequence Chair

The role of the SC includes the following components:

• The SC serves as the main point of contact for faculty members teaching in the sequence regarding all aspects of teaching, including but not limited to course content and delivery, classroom management and student concerns.

• Regarding student concerns, the SC primarily serves to guide instructors, communicate about and route the student issues to the appropriate faculty/staff. In most cases, it is not the role of the SC to solve the student issues. If the nature of the student concern is in relation to specific aspects of the course (such as grading, assignment/exam submission expectations, etc.), the SC may be the appropriate person to address the issue because it requires consistency across the sequence sections. For many student concerns, the SC may guide the instructor to contact the student’s advisor and program director, and in some situations, the Assistant Dean for Academic Services.
• The SC is responsible for constructing and updating the sequence courses.
• The SC develops and maintains the syllabi for courses in the sequence, including mapping course content to CSWE competencies.
• The SC is responsible for consistency and adherence to the competencies in the delivery of the course.
• The SC distributes the syllabi to all the faculty members who are teaching in the sequence.
• The SC ensures that books are identified and entered into the book order system for each semester. In addition, the SC is responsible for coordinating with the appropriate SSW support staff person to order desk copies for the sequence faculty.
• The SC ensures that all course materials (articles, readings, assignment instructions, review materials, etc.) are available to instructors for upload to the Blackboard site.
• The SC provides course materials to new and continuing adjunct faculty teaching on the sequence.
• The SC develops quizzes, tests, exams and paper/project assignments for use across all sections of the sequence.
• If relevant, the SC coordinates electronically administered quizzes/exams, including reserving the computer room for exam administration for all sequence sections.
• The SC has regular contact with the sequence faculty through e-mails, phone calls, and meetings. It is expected that the SC meet with the sequence faculty (as a group) several times per semester, either in person or through virtual technology.
• The SC maintains communication with the MSW program director regarding ideas, questions, concerns, and feedback related to the sequence and the faculty teaching in the sequence.
• The SC is a member of the MSW Program Committee.
• The SC will communicate with the BSW program director in order to coordinate with the BSW lead instructors who are teaching parallel courses/course content to the MSW sequence. For example, the SC for Research will coordinate with the BSW lead instructor regarding research content in the research courses in both programs.

b. Appointment and Term of Sequence Chairs

Designation of Sequence Chairs is proposed by the MSW Program Director and brought for approval to the MSW Program Committee. Sequence Chairs are chosen with consideration for their knowledge and understanding of the sequence content, as well as their capacity to perform the administrative functions of the role. It is discouraged to appoint Assistant Professors on a tenure-track as Sequence Chair prior to their mid-term (3-year) review. Special consideration role assignment will also be given to faculty members with significant research responsibilities.

Sequence Chairs serve a 3-year term and may be re-appointed to the position by the MSW Program Committee for up to two additional terms. Sequence Chairs may
request not to be re-appointed, and such requests should be taken into consideration in the choice of Sequence Chair.

In the event that a Sequence Chair is not fulfilling the role in a repeated and or significant manner, the MSW Program Director may recommend that a Sequence Chair be removed from their appointment during mid-term of their appointment. Such a recommendation would be brought to the Associate Dean for Academic Affairs for consultation and to the Dean for final determination.

c. Workload Implications for Sequence Chairs

It is expected that Sequence Chairs teach at least one section of the sequence during the academic year. In recognition of the work done by Sequence Chairs, each will receive one percent (1%) of salary discretionary bonus each academic year for that years’ service whenever such funds are made available by contract.

I. Undergraduate Program Committee

The Undergraduate Program Committee is responsible for overseeing the Undergraduate Program and advising the undergraduate program director on matters related to the program. From time to time the Undergraduate Program Committee may establish sub-committees to do the more detailed work of developing syllabi, assignments, bibliography, and elective content. The Undergraduate Program Committee oversees the work of any established sub-committees.
