About the Program

Front line workers provide critical services to our nation’s seniors and individuals with disabilities. As one of the fastest growing occupational sectors in our nation, we must make meaningful investments to ensure that this field encourages retention, provides advancement opportunities and empowers those dedicated to caring for vulnerable members of our community.

Stony Brook University’s Schools of Social Welfare and Nursing are now part of the Ladders to Value Workforce Investment Organization* (LTV WIO). We will be launching a series of skill building educational workshops for the direct care workforce in the long-term care sector on Long Island. The LTV WIO will utilize innovative strategies through educational trainings to recruit, retain, and support direct care workers.

Who Should Attend

The trainings specifically target the direct care workforce including CNAs, LPNs, RNs, Care Managers, OT & PT Assistants, Home Health Aids, and BSWs, as well as a range of administrative staff with direct patient contact.

When

We are offering ½ day workshops. In the future these staff development opportunities may include online self-study programs. The courses are free for long term care employees. To encourage participation, organizations that employ an individual attending a 4-hour session may submit documentation of eligibility to receive training incentive.

WORKSHOP TOPICS

Hoarding

The Privilege of Social Distancing

Pain Management

Anger as a Post Traumatic Experience

Racial Inequity in Health Care

Racial Justice and Equity

Working with People from all Identities and Backgrounds

Recognizing Substance Abuse and Addictions

Trauma Informed Care

Caring for People with Dementia

We continuously add new topics. Visit our website for upcoming dates, times and locations:
